

Lennin Sabogal

Montreal, Canada • +1-438-866-4659 • lenninssp1021@gmail.com

Education

Collège LaSalle

DEC in Computer Science

Relevant coursework: Web Development, Web Server Applications, Advanced OOP, UI/UX Design

Montreal
07/2023 - Present

Experience

Frontend Developer

Hadaly Montreal
06/2024 - 09/2025

- Developed payment platform implementing Stripe, reducing manual billing time by 70%.
- Built and maintained multiple 50+ React components to improve user productivity and data visualization used daily by 100+ clients.
- Contributed to 100+ UI/UX designs using Figma, collaborating with designers to create intuitive and scalable interfaces.
- Worked closely with cross-functional teams (backend, product, and design) to deliver features aligned with client needs in the M&A industry.

Mobile Developer

Serinpet Colombia
01/2023 - 05/2024

- Migrated a legacy Java desktop application for pressure and equipment calculations to a fully functional Android app.
- Redesigned and modernized the user interface (UI) for enhanced usability and accessibility in field operations.
- Delivered a complete application overhaul, cutting calculation time from hours to minutes for engineers.

Projects

Git sprite creator

Fullstack project using Deno, React.js, Postgresql and Docker to build a web application that tracks the progress in a codebase through pokemon sprites. 06/2025 - 09/2025

Album ranker

Fullstack project using Django, React.js, Postgresql and Docker to build a web application that lets the user rank and evaluate songs of their favorite albums, while using advanced algorithms for future recommendations 01/2025 - 05/2025
